Blue Valley SAT score exceeds state and national averages

Blue Valley students have reason to celebrate. The 2009 graduates scored extremely well on the SAT test and continue to far exceed state and national averages.

Students scored on average 1757 on the test that measures math, verbal and writing skills. In Kansas, the average is 1734 and nationwide the average is 1509, out of a possible 2400.

“These scores are outstanding. They represent the hard work and dedication of our students and staff,” said Tom Trigg, superintendent. “This is a great example of *Education Beyond Expectations* at work in Blue Valley schools.”
