Blue Valley senior named semifinalist in Intel Science Talent Search

Blue Valley High senior Monica Roy Chowdhury was selected as a semifinalist in the Intel Science Talent Search.

The Intel Science Talent Search (STS) is a prestigious national science competition. Alumni of STS have made extraordinary contributions to science and hold more than 100 of the world's most coveted science and math honors, including seven Nobel Prizes and three National Medals of Science. The Intel STS recognizes 300 students and their schools as semifinalists each year pulling from approximately 1,700 applicants to compete for \$1.25 million in awards. From that select pool, 40 student finalists are then invited to Washington, D.C. in March to participate in final judging, display their work to the public, meet with notable scientists, and compete for the top award of \$100,000.
